### **Gracenote<sup>®</sup> End User License Agreement**

This application or device contains software from Gracenote, Inc. of Emeryville, California ("Gracenote"). The software from Gracenote (the "Gracenote Software") enables this application to perform disc and/or file identification and obtain music-related information, including name, artist, track, and title information ("Gracenote Data") from online servers or embedded databases (collectively, "Gracenote Servers") and to perform other functions. You may use Gracenote Data only by means of the intended End-User functions of this application or device.

You agree that you will use Gracenote Data, the Gracenote Software, and Gracenote Servers for your own personal non-commercial use only. You agree not to assign, copy, transfer or transmit the Gracenote Software or any Gracenote Data to any third party. YOU AGREE NOT TO USE OR EXPLOIT GRACENOTE DATA, THE GRACENOTE SOFTWARE, OR GRACENOTE SERVERS, EXCEPT AS EXPRESSLY PERMITTED HEREIN.

You agree that your non-exclusive license to use the Gracenote Data, the Gracenote Software, and Gracenote Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Gracenote Data, the Gracenote Software, and Gracenote Servers. Gracenote reserves all rights in Gracenote Data, the Gracenote Software, and the Gracenote Servers, including all ownership rights. Under no circumstances will Gracenote become liable for any payment to you for any information that you provide. You agree that Gracenote, Inc. may enforce its rights under this Agreement against you directly in its own name.

The Gracenote service uses a unique identifier to track queries for statistical purposes. The purpose of a randomly assigned numeric identifier is to allow the Gracenote service to count queries without knowing anything about who you are. For more information, see the web page for the Gracenote Privacy Policy for the Gracenote service.

The Gracenote Software and each item of Gracenote Data are licensed to you "AS IS." Gracenote makes no representations or warranties, express or implied, regarding the accuracy of any Gracenote Data from in the Gracenote Servers. Gracenote reserves the right to delete data from the Gracenote Servers or to change data categories for any cause that Gracenote deems sufficient. No warranty is made that the Gracenote Software or Gracenote Servers are error-free or that functioning of Gracenote Software or Gracenote Servers will be uninterrupted. Gracenote is not obligated to provide you with new enhanced or additional data types or categories that Gracenote may provide in the future and is free to discontinue its services at any time.

GRACENOTE DISCLAIMS ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT. GRACENOTE DOES NOT WARRANT THE RESULTS THAT WILL BE OBTAINED BY YOUR USE OF THE GRACENOTE SOFTWARE OR ANY GRACENOTE SERVER. IN NO CASE WILL GRACENOTE BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES OR FOR ANY LOST PROFITS OR LOST REVENUES.

© Gracenote, Inc. 2009

### **NOTIFICATION of GNU General Public License**

This product contains a software which, as a free software, is fully or partly subject to the terms of a license of the GNU General Public License Version 2/Version 3 or GNU Lesser General Public License ("LGPL"). Upon request (nwkoh@novatron.co.kr), you will also receive the software's source code on a customary data storage device. In return, we will claim the production costs of this storage device. You can find the complete license text subsequently.

You can learn more on http://www.gnu.org/licenses/gpl-2.0.html. Since this is a free software, the software developers exclude the liability to the extent permitted by law. Please note that, naturally, the warranty for the hardware is not affected by this and is fully in place. We gladly answer any of your questions at nwkoh@novatron.co.kr.

### GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public

License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This

General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to

using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to

your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy,

distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original

authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.

### GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a

portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of

running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the

Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you

conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the

notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License

along with the Program. You may charge a fee for the physical act of transferring a copy, and

you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any

part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such

interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a

notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under

these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program,

and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those

sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based

on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the

entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest

your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or

collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of

Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections

1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be

distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is

allowed only for noncommercial distribution and only if you received the program in object code or executable form with such

an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary

form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt

otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License.

However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such

parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or

distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by

modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and

all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the

original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further

restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to

this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues),

conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not

excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this

License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent

license would not permit royalty-free redistribution of the Program byall those who receive copies directly or indirectly through you, then

the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to

apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any

such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is

implemented by public license practices. Many people have made generous contributions to the wide range of software distributed

through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing

to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the

original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding

those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates

the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any

later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free

Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software, which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES

PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS

TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,

INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively

convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by

the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of

MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA. Also, add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode: Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details. The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program. You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names: Yoyodyne, Inc., hereby disclaims all copyright interest in the program 'Gnomovision' (which makes passes at compilers) written by James Hacker. <signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

### GNU GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<u>http://fsf.org/></u> Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

#### Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works. The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is

intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNUGeneral Public License for most of our software; it applies also to any other work released

this way by its authors. You can apply it to your programs, too.When we speak of free software, we are referring to freedom, not price. Our General PublicLicenses are designed to make sure that you have the freedom to distribute copies of freesoftware (and charge for them if you wish), that you receive source code or can get it if youwant it, that you can change the software or use pieces of it in new free programs, and thatyou know you can do these things.To protect your

rights, we need to prevent others from denying you these rights or asking youto surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others. For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to

authors of previous versions. Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as

needed to protect the freedom of users. Finally, every program is threatened constantly by software patents. States should not allow

patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free. The precise terms and conditions for copying, distribution and modification follow.

### TERMS AND CONDITIONS

### 0. Definitions.

"This License" refers to version 3 of the GNU General Public License. "Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks. "The Program" refers to any copyrightable work licensed under this License. Each licensee is

addressed as "you". "Licensees" and "recipients" may be individuals or organizations. To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a

"modified version" of the earlier work or a work "based on" the earlier work. A "covered work" means either the unmodified Program or a work based on the Program. To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some

countries other activities as well. To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the

extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

#### 1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work. A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as awhole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that

Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating

system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control nflow between those subprograms and other parts of the work. The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source. The Corresponding Source for a work in source code form is that same work.

### 2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law. You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others

for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you. Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

#### 3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

### 4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any nonpermissive

terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program. You may charge any price or no price for each copy that you convey, and you may offer

### support or warranty protection for a fee.

### 5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

• a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

• b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

• c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are

packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

• d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so. A compilation of a covered work with other separate and independent works, which are notby their nature extensions of the covered work, and which are not combined with it such as toform a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access orlegal rights of the compilation's users beyond what the individual works permit. Inclusion of acovered work in an aggregate does not cause this License to apply to the other parts of theaggregate.

### 6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.
b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give

anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of

physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

• c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

• d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the

Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts

the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

• e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to thegeneral public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a

consumer product, doubtful cases shall be resolved in favour of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the

particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of

whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the

### product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made. If you convey an object code work under this section in, or with, or specifically for use in, a

User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM). The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed.

Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network. Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

### 7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent

that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place

additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

• b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

• c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

• d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

• e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

• f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those

licensors and authors. All other non-permissive additional terms are considered "further restrictions" within themeaning of section 10. If the Program as you received it, or any part of it, contains a noticestating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits

relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying. If you add terms to a

covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating

where to find the applicable terms. Additional terms, permissive or non-permissive, may be stated in the form of a separately

written license, or stated as exceptions; the above requirements apply either way.

### 8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third

paragraph of section 11). However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation. Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright

holder, and you cure the violation prior to 30 days after your receipt of the notice. Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

#### 9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-topeer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

#### 10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts. You may not impose any further restrictions on the exercise of the rights granted or affirmed

under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by

making, using, selling, offering for sale, or importing the Program or any portion of it.

### 11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version". A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some

manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License. Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version. In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a

patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party. If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the

covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a

specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it. A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the

covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defences to infringement that may otherwise be available to you under applicable patent law.

#### 12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations

under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could

satisfy both those terms and this License would be to refrain entirely from conveying the Program.

#### 13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this

License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

#### 14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of

any later version published by the Free Software Foundation. If the Program does not specify a version number of the

GNU General Public License, you may choose any version ever published by the Free Software Foundation. If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version

permanently authorizes you to choose that version for the Program. Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

### 15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY'APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH

YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

### 16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### 17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

### GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

#### 0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License. "The Library" refers to a covered work governed by this License, other than an Application or

a Combined Work as defined below. An "Application" is any work that makes use of an interface provided by the Library, but

which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library. A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version". The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined

Work that, considered in isolation, are based on the Application, and not on the Linked Version. The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for

reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

#### 1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

### 2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

• a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or

• b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

### 3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts

and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.

• b) Accompany the object code with a copy of the GNU GPL and this license document.

### 4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

• a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.

• b) Accompany the Combined Work with a copy of the GNU GPL and this license document.

• c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.

• d) Do one of the following:

o 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.

o 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

• e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must

provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

### 5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both

of the following:

• a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.

• b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

### 6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it

specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If

the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation. If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of

acceptance of any version is permanent authorization for you to choose that version for the Library.

## Important safety instructions

For your own safety, please read the following important safety instructions carefully before attempting to connect this unit to the main power supply. They will enable you to get the best performance from the unit.

1.Read the instructions.

2.Keep the instructions.

3.Heed all warnings.

4.Follow all instructions.

5.Do not use this product near water.

6.Clean only with dry cloth.

7.Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.8.Do not remove the casing of this product.

9.Only use this product indoors. Do not expose the product to water, rain or high humidity.

10.Keep this product away from direct sunlight, naked flames or heat.

11.Do not install near any heat sources such as radiators, heat registers, stoves, or other electrical equipment(including amplifiers) that produce much heat.

12.Do not place any other electrical equipment on the product.

13.Do not place any sources of danger on the product(e.g. objects containing liquid, burning candles)

14. This product includes batteries. Please refer to safety and disposal instructions for batteries in this user manual.

15.Unplug this product during lightning storms or when unused for long time.

16.Refer all servicing to qualified service personnel. Servicing is required when the product has been damaged, such as the power supply cord, damaged plug, liquid spillage, objects dropped on the unit, exposure to rain or moisture, does not operate properly, or has been dropped.

17. The apparatus shall be connected to a MAINS socket outlet with a protective earthing connection

18. The an all-pole MAINS SWITCH is used as the disconnect device, the location on the apparatus and the function of the switch shall be described, and the switch shall remain readily operable

### WARNING

- Using headphones at a high volume can impair your hearing. This product can produce sounds in decibel ranges that may cause hearing loss for a normal person, even for exposure less than a minute. The higher decibel ranges are offered for those that may be experiencing some hearing loss. Over time your hearing 'comfort level' adapts to higher volumes of sound, so after prolonged listening, what sounds 'normal' can actually be loud and harmful to your hearing. To guard against this, set your volume to a safe level.
- Loudspeakers : Before making any connections to loudspeakers, make sure all power is turned off and only use suitable interconnects.

- Only use attachments/accessories specified and supplied by the manufacturer.

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance(servicing) instructions in the literature accompanying the appliance

FCC regulations

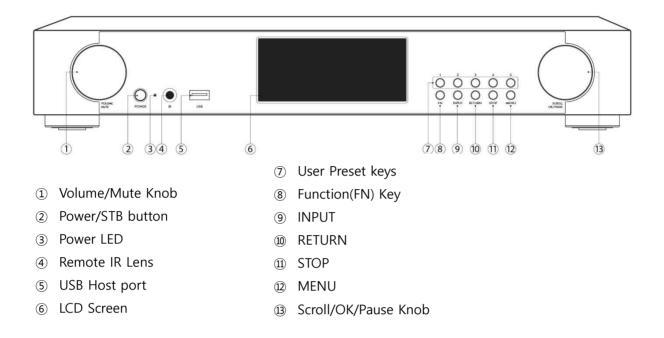

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER AUTHORITY TO OPERATE THE EQUIPMENT.

FCC This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy. If not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

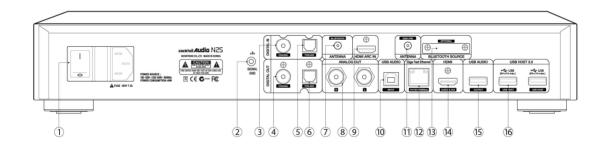

- Re-orient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## 2. Prepare

## 2-1. Check the contents of N25 package

- ④ Bluetooth Antenna
- (5) User's Guide

## 2-2. Install AAA batteries into the remote control.

Open the battery door and insert the batteries.

## 2-3. Optional items

## 2-3-1. WiFi USB dongle

If you purchased optional items, the WiFi USB dongle, it looks like below.

801.11b/g/n WiFi USB dongle

[NOTICE] The wifi dongle not approved by N25 manufacturer will not work properly

## 2-3-2. Bluetooth transmitter

### 2-3-2-1. What to do with Bluetooth transmitter

For playing music from N25 via Bluetooth speakers or Bluetooth headphones, please install Bluetooth transmitter module to the N25

[NOTICE] The BT transmitter module not provided by N25 manufacturer will not work properly

You need Bluetooth transmitter module, Antenna and

(1) Unscrew the two screws on the rear of the N25 to remove

(2) Insert the BT transmitter module and fix it with the two

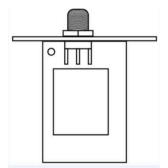

### 2-3-2-2. How to install Bluetooth transmitter module

screwdriver

screws

the small cover

(3) Install the BT antenna

< BT transmitter module>

### 2-3-3. Other optional items

An USB storage or NAS(network attached storage) is needed to store music files. You can purchase these kinds of items in the market

## 2-4. To use N25 as USB DAC

## 2-4-1. USB Audio Class 2.0 Driver Software for Windows OS

You should install USB Audio Class 2.0 driver software for Windows OS so that you could use N25 as an USB DAC with Windows PC properly.

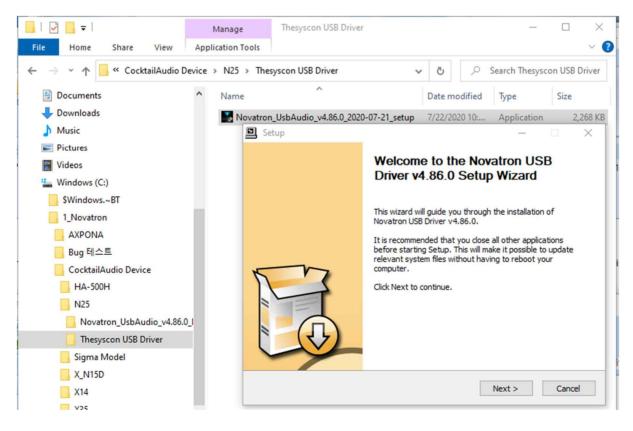

You can download USB Audio Class 2.0 driver software from our website, www.cocktailaudio.com or from our local distributor website.

## 2-4-2. How to install USB Audio Driver Software to Windows PC

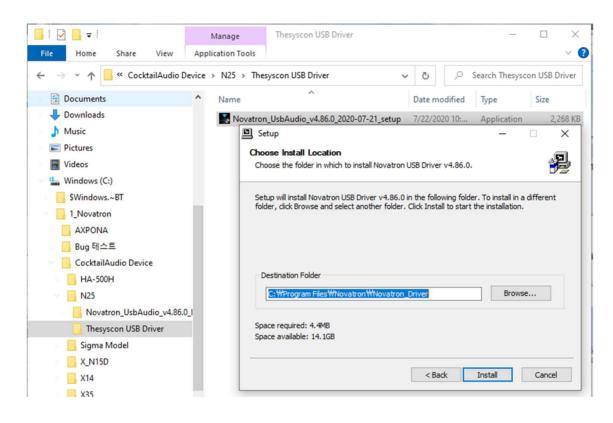

Unzip the downloaded Driver Software. The USB driver file will show up like below.

🗸 🔶 👻 🛧 🧧 « CocktailAu	udio Device 🔅	N25 > The	syscon USB Driver	~	ڻ ،	Q	Search Thesysco	on USB Drive

# 3. Turn On and Start

## 3-1. Wizard Setup (Setup Assistant)

During fist booting-up procedure, you will meet the Setup Assistant (Wizard Setup) as shown below.

Select OK and confirm with the OK key to start Wizard Setup. If you want to run the set up after booting up, you can select CANCEL at the 1<sup>st</sup> step.

# Wizard Setup	🔡 OSD Language	Hand Home
	<b>∀</b> English	
Do you want to run "Wizard Setup" ?	French German Dutch	Image: New Control         Image: New Controw         Image: New Control         Image:
OK Cancel	Italian Korean	Music DB

<NOTICE> It will ask for OSD language, Audio Ripping Format, Network Setup, Time setting, etc.

## 3-2. Turn ON for normal use

Switch the unit on at the rear of the N25. The power LED will be ON with green color. Power it on

using the remote control or the power button on the front of the N25. The power LED color will be changed to blue and start booting – The N25 should take about 30~40 seconds to boot up as it is looking to see if a network is connected.

After the N25 is powered ON, the below screen will show up in sequence.

1) Booting image 2) Booting completed and ready for use

- Music DB: Play loaded(ripped) music in N25 Music DB folder.
- CD Play/Rip: Play CD and rip.
- Playlist: Make Playlist and play it.
- i-Service : Play i-Radio or online music service
- Input: To select Input source

- FM Radio/DAB+: Play FM or DAB+
- Browser : See all storages such as hard disk of N25, USB host and networked storages.
- Group Play : Set for Multi-room(Group Play)
- Setup : Change settings

## 3-3. When using N25 as an USB Digital to Analog Converter (DAC)

- ① Install USB Audio 2.0 Driver Software to your Windows PC(Refer to 2-4 in page 28)
- ② Install a special software(Player) like foobar2000 if you want to play DSD file in your PC
- ③ Connect N25(USB Audio IN) and your PC(USB Host port) via USB cable
- ④ Remaining procedures will be understood easily

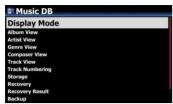

# 4. SETUP

Go into SETUP menu with remote controller.

🕸 Setup
Music DB
CD Ripping
Audio
Network
Network Service
Internet Service
System
Time
Firmware

You can select each item with the arrow key and confirm it with the OK button.

### 4-1. Music DB

Select the Display Mode and confirm with the OK button.

### 4-1-1. Display Mode

You may set one of fourteen (14) options, see below. For example, if you set Title, the Music DB will display the title (song) list when you go into the Music DB.

9	Display Mode
	Album Artist
	Genre / Track
	Genre / Album
	Genre / Artist / Album
>	Album
	Composer / Track
	Composer / Album
	Mood / Track
	Mood / Album

※ Default : Album

### **% For example**

- Artist/Track : Artist list → Title(song) list
- Artist/Album : Artist list  $\rightarrow$  Album list of the artist  $\rightarrow$  Track (song) list of the album

### 4-1-2. Album View

You can set the list to show albums in the Music DB by its album name (text) or album cover art using this setup.( × default : text mode )

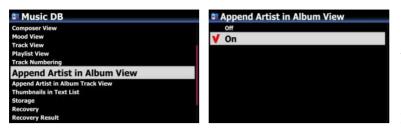

\*\* Artist view, Genre view, Composer view and Track view also are available.

## 4-1-3. Track Numbering

You can clear the current Music DB

# 4-2. CD Ripping

## [NOTICE]

For this function, optional items like an external USB ODD and storage are needed

Select CD Ripping and confirm it with the OK button. The below items will be displayed.

Setup	SCD Ripping	
Music DB	Bit Rate	
CD Ripping	Quality	
Audio	Audio Rip Format	
Network		
Network Service		
Internet Service		
System		

## 4-2-1. Bit Rate and Quality

You can select bit rate and the quality level for ripping to MP3 files.

There are two (2) items.(This is for ripping a CD to an MP3 file)

- Compressed Rate : 128K / 192K / 320K [default] 192K
- Quality level : Excellent / Best / Good / Fast / Very fast
  [default] Very fast

Select one of the above options and confirm with the OK button on the remote control.

[ TIP (1)] The time required to rip a CD to MP3 format based on each quality level option is shown below.

Option of quality level	Normal playing time	Required time to convert to MP3
Excellent		X 1.5 (150%)
Best	The time required to	X 1.08 (108%)
Good	play music in CD	X 1 (100%)
Fast	normally.	X 3/4 (75%)
Very fast[Default]		X 1/3 (33.3%)

%Quality level affects on the MP3 and Ogg ripping in view of sound quality, and on the FLAC ripping in view of file size.

[ TIP 2 ] Estimated Storage capacity

CD Ripping	option	500GB HDD	1 TB HDD	2 TB HDD	4 TB HDD
WAV(uncom	pressed)	650 CDs	1,300 CDs	2,600 CDs	5,200 CDs
	Compressed Rate				
	128K	7,500 CDs	15,000 CDs	30,000 CDs	60,000 CDs
MP3 /	192K	5,000 CDs	10,000 CDs	20,000 CDs	40,000 CDs
OGG	320K	3,000 CDs	6,000 CDs	12,000 CDs	24,000 CDs

These figures may vary slightly according to the number of tracks on a CD

## 4-2-2. Audio Format (Audio Rip Format)

SCD Ripping	Audio Rip Format	
Bit Rate	VAV	
Quality	AIFF	
Audio Rip Format	MP3 Ogg FLAC ALAC	
		is ₩AV 💥

You can select one of the following audio formats for CD Ripping;

## 4-2-3. Auto Rip

List Only like below.

#### 4-3-2. USB/HDMI Audio Out

When USB DAC or HDMI audio device is connected to N25 USB Audio Out, the connected devices will be listed here. You may select it here.

#### 4-3-3. DSD Signal Type

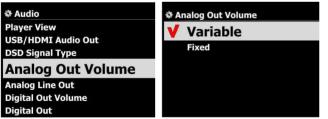

There are many kinds USB DAC(Digital-to-Analog Converter) in the market, which can be connected to N25 USB Audio Out. But, some of these DAC can receive 'DSD Native signal', others can receive 'DoP signal' only instead of 'DSD Native signal'. So, we added 'DSD Signal Type' option at SETUP, which gives three (3) options like below. You need to select proper option according to your USB Audio DAC spec.

- -. DSD(DoP): This is for the USB DAC which receive 'DoP signal' instead of 'DSD Native signal'
- -. DSD(Native): This is for the USB DAC which can receive 'DSD Native signal'
- -. PCM : This is for the USB DAC which can receive 'PCM signal' only.

**Slide Show Effect** 

Limit Sample Rate in Audio Convert

Slide Show Time Replaygain

4-3-11. Slide Show Effect

Six (6) options are available like All, Fade in & out, Transition, Rotation, Flip and None.

You can set as ON or OFF for Coaxial output

X NOTE: For detailed explanation, refer to 17-2. Photo Slide Show (Page 96)

You can set show time and effect time according to your taste. X Show time: The time required to show one photo Effect time: The time required to transit one photo to other photo

XNOTE: For detailed explanation, refer to 17-2. Photo Slide Show (Page 96)

#### 4-3-13. Replaygain

#### 4-3-13-1. What's the Replaygain function

It allows N25 to equalize and normalize loudness for individual track or album. This avoids the common problem of having to manually adjust volume levels between tracks when playing audio files from albums that have been mastered at different loudness levels. X Default: OFF

#### 4-3-16-2. Premise for the Replaygain function

Replaygain function is valid for Music DB icon(Music Index), music files stored in the USB(external USB storage) and NET(NAS: network attached storage)
 **\*[NOTE]** If executing 'Replaygain' for the MuicDB(index only), the Replaygain value will be applied to the original files in the storage corresponding to MusicDB index
 You have to set Replaygain as ON at SETUP(Setup>Audio>Replaygain \*Default : OFF
 +(-)#.## dB will be displayed at 6th line of File Player Info when playing a file which has Replaygain info
 DSD file can work with Replaygain function in only case that the DSD file play out by PCM

4) DSD file can work with Replaygain function in only case that the DSD file play out by PCM data

5) MQA file can't work with Replaygain function

4-3-16-3. How to write(add) 'Replaygain info' into metadata of

#### each music file(track)

 Place the cursor on the target album or track list. You may select multiple list by RIGHT ARROW key
 Press MENU key and click 'File Operations > to get Replaygain started

🗟 Albu	m
	ingles Collection / Sarah Brightman
Hardhin	Select All

ф Р	Power On Volume	
	Last Played Volume	
٧	Volume Selection	

You can set to preferred volume level of the N25 when booting. There are two options. One is 'Last Played Volume', the other is 'Volume Selection'.

※ Default: Volume Selection

#### 4-4. Network

X Make sure your Ethernet cable or a USB WiFi dongle is connected.

Select Network and press the OK button.

① Select Network and confirm with the OK button.

② Select Wired Setup or Wireless Setup and confirm it with OK button.

[ TIP ] To check network information, press Network Info.

#### 4-4-1. Wired Setup

Wired Setup ✓ DHCP(Auto IP) Static IP	<ul> <li>③ Select DHCP(Auto IP) and confirm with the OK button. There is no need to enter any values.</li> <li>④ Select OK and confirm with the OK button.</li> </ul>
&Wired IP	

4-4-1-1. DHCP (Auto IP)

192.168.0.22
255.255.255.0
192,168.0,1
194.25.0.52
00:1F:1F:4F:D0:9F

Cancel

IP Address Net Mask Gateway

DNS Server 0.0.0.0

(5) The screenshot shown on the left will be displayed if the network is connected successfully.

#### 4-4-1-2. Static IP

IP Address	0.0.0
Net Mask	0.0.0.0
Gateway	0.0.0
DNS Server	0.0.0

Network	Info
IP Address	192.168.0.22
Net Mask	255.255.255.0
Gateway	192,168.0,1
DNS Server	194.25.0.52
MAC Addr	00:1F:1F:4F:D0:9F
	ок

- 1 Select Static IP and confirm with the OK button.
- ② Enter the values such as; IP Address, Subnet mask, etc.
- ③ Select OK and confirm with the OK button

(4) The screen to the left will be shown if the network is connected successfully.

#### 4-4-2. Wireless Setup.

The N25 offers two kinds of method for wireless network connection

	4-4-2-1	1 Open S	SID	
<ul> <li>AP List</li> <li>Network</li> <li>Wired Stress</li> <li>Wiress</li> <li>Network I</li> <li>Wireless In</li> </ul>	etup s Setup nfo	Scan / Scan / Scan / Scan AP List Scan AP List Set AP M	et AP	()  k 
	Get AP List	◆AP List AAAAA BBBBB CCCCC DDDDD EEEEEE FFFFFFF GGGGGG HHHHHHH	A	
Wireless Password Mode Security Encryption	s Setting Infrastructure WPA-PSK AES-CCMP	Wireless IP Address Net Mask Gateway DNS Server	Network 192.168.0.22 255.255.255.0 192.168.0.1 194.25.0.52	T r

NUN

① Select 'Wireless Setup' and confirm with OK key.

② Select 'Scan Ap List'. All AP available will be listed up.

③ Select proper AP and confirm with OK key.

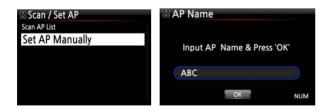

④ If the AP has a password, enter it and select OK and confirm OK key.

The screen to the left will be shown if the network is connected successfully.

※ With CAP/NUM key of remote control, you can toggle number, capital, small alphabet or symbols for typing.

4-4-2-2 Hidden SSID

① Select 'Set AP Manually' to open the window for AP name input like left.

Input AP name and select OK and confirm it.

(5) The window for the password input will show up. The follow procedure is same as 'Open SSID'

#### 4-4-2-3 WiFi Repeater Roaming function

In case that signal strength of the connected AP goes down -45db, the N25 will be connected to the AP which has same SSID and better signal strength if it is detected

#### 4-4-3. Network Info

Wireless	Network
IP Address	192.168.0.22
Net Mask	255,255,255,0
Gateway	192.168.0.1
DNS Server	194.25.0.52
MAC Addr	00:1F:1F:4F:D0:9F
	ОК

Select Network Info and confirm with the OK key. You can see the network information displayed as shown below.

#### 4-4-4. Wireless Info

Wireless	Info
ESSID	кккк
Signal Level	80%
Link Quality	80%
Noise Level	0%

Select Wireless Info and confirm with the OK key. You can check the Wireless LAN signal strength, see below screen shot.

#### 4-4-5. Wake ON LAN

* Network	🏶 Wake On LAN
Network	Off
Wired Setup	V On
Wireless Setup	
Network Info	
Wireless Info	
Wake On LAN	

If Wake ON LAN is set as ON, N25 can be powered ON by a signal from outside via network.

※ Default: OFF

<NOTICE> In case that Wake ON LAN is set as ON, N25 Power LED on the front will stay as Blue even though you power it off by remote control or front power button.

#### 4-5. Network Service

Setup	Network Service
Music DB	Samba Server
Cd Ripping Audio Network	Host Name Workgroup
Network Service	Web Server UPnP Server
Internet Service	Ftp Server
System	User Name
Time	Password
Firmware	Shareplay(Airplay)

Select Network Service and confirm with the OK key. There are several items like Samba Server, Web Server, UPnP Server and FTP Server and Shareplay(Airplay)

#### 4-5-1 Samba Server

If you would like to see the folders on the N25 hard disk through your network connected PC you can set up the following:

1 Select Samba Server and confirm with the OK key. Set Samba Server as ON, see below Samba Server (RUN)

※ default: OFF

② Select Samba Server and confirm with the OK button.

Network Service	88 Host Name	Ba Workgroup
Samba Server		
Host Name		
Workgroup	Input Host Name & Press 'OK'	Input Workgroup & Press 'OK'
Web Server		input workgroup & riess ok
UPnP Server		
Ftp Server		
User Name	X45	cocktailAudio
Password		
Shareplay(Airplay)	ОК	OK

- ③ Select Host Name and Workgroup.
- ④ Enter host name and workgroup name and select OK and confirm with the OK button.

#### 4-5-2 Network Sharing (Samba Client)

You can connect the N25 and the storage devices in the same network. If you want to stream the file in remote devices and play it with the N25, you need to do 'network sharing' first as below.

#### 1) How to add 'shared folder'

Browser  HDD1  NET  UPNP	<ul> <li>NET</li> <li>▲Up dir</li> <li>Q Add share</li> </ul>	<ol> <li>Go to Browser and click 'NET'</li> <li>'Add share' will be shown, then click it</li> </ol>

Server	WOR	KGRO	UP\SE	RVER	
User Name	gues	t			
Password					
Share					
Nick Name					
Path					

- ③ Place the cursor on the 'Server' and confirm it with OK key
- ④ Connected server list will be displayed like below picture

🔠 Workgroup	
COCKTAILAUDIO	
WORKGROUP	

(5) Select right one and click it

Server	WORKGROUP\DESKTOP	-KA2RMMS
User Name	guest	
Password		
Share		
Nick Name		
Path	\\192.168.0.13\	

Server	WORKGROUP\DESKTOP-KA2RMMS
User Name	guest
Password	
Share	Users
Nick Name	Users
Path	\\192.168.0.13\Users

6 Then, IP address will be shown up in the path

X In case that IP address doesn't show up, please insert it by keyboard. You can connect USB keyboard into N25

- (7) Place the cursor on the IP address, and click it (8) Then, shared folder will be shown up in the Share ※ If 'Requires authentication for Share' message come out, you need to set it on Windows(PC Operation System)
- (9) Place the cursor on the OK and confirm it to finish WORKGROUP\DESKTOP Name que 1) if you want, you can change Nick Name Requires authentication for Share \\192.168.0.13\ G

Up Dir Add Share	Add Share		
	Users	Users	
Jusers			
Users			

1) Now, you may select 'Users' folder and click it to play the files in the shared folder.

#### 2) How to edit and remove 'shared folder'

① Place the cursor on any folder listed on the screen.

2 Press MENU key to open popup menu as the picture on the left. You may add or edit here.

#### 3) Convenient method to input the user name that you input previously

Add Net	work		🔠 User Name
Server	CENTOS \CENTOS63		wslim:\\X30\Localstorages
User Name	wslim		wslim:\\CENTOS63\tango3
Password	3akflskk		guest
Share			
Nick Name			
	OK	NUM	

Place the cursor on the User Name and click it. Then, you may see the user name that you input previously

#### 4-5-3 UPnP Server

If you have a device (like a PC) which supports UPnP client protocol, you can play music stored in the N25 Music DB through the UPnP device.

Default setting for UPnP Server is ON, see below.

Network Service	UPnP Server (Run)
Samba Server Host Name Workgroup Web Server	off <b>V</b> On
UPnP Server	
Ftp Server User Name Password Shareplay(Airplay)	

#### 4-5-4 FTP Server

Select FTP Server and confirm with the OK key. Set it to ON. User name is fixed as Guest. Default password is 0000. You may change password should you wish to.

Network Service	♣ Ftp Server (Run)
Samba Server Host Name Workgroup Web Server UPnP Server	off ✔ On
Ftp Server	
User Name Password Shareplay(Airplay)	
88 FTP User Name	器 New Password
guest	Input New Password & Press 'OK'

[ TIP ] You may use the FTP software like 'File Zilla'. The character should be set as 'UTF-8'.

#### **What you can do with FTP Server function?**

After installing FTP software like 'File Zilla' onto your PC, you can copy, delete or move files or folders between N25 hard disk and your PC hard disk.

#### 4-5-5 Shareplay(Airplay)

Shareplay(Airplay) (Run)
Off
V On

You can set Airplay function as OFF if needed

**%Default:** ON

#### 4-6. Internet Service

N25 integrated Online Music Services into its software. So, you can play Amazon Music, Qobuz, TIDAL, Deezer, Napster and HighresAudio with N25 directly if you subscribe for those services and put their user name and password here properly.

Setup	Internet Service
Cd Ripping	Qobuz Service
Audio Network Network Service	User Name Password
Internet Service	Audio Format Tidal Service
System	User Name
Time	Password

 Including Sub-Folder : All songs in sub-folders also will be played.
 Excluding Sub-Folder : Any song in sub-folders will not be played

※ Default: Excluding Sub-Folder

You can play all files in multiple folders or in single folder.

- 1 Select folders with RIGHT arrow key.
- 2 Press MENU key to open popup menu
- $\ensuremath{\mathfrak{S}}$  Select 'Start Playing' to start playing.
- $\ensuremath{\mathfrak{S}}$  All songs in the selected folder will be played

#### 4-7-8. Factory Reset

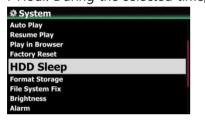

System	🖁 Factory Reset
Use RDS When Seek All Auto Play Resume Play Play in Browser	Choose "OK" to restore
Factory Reset	factory default configuration.
HDD Sleep Format Storage File System Fix Brightness	OK Cancel

To restore changed values of setup, select Factory Reset and confirm with the OK button.

<NOTICE> When you boot up after Factory Reset, it will ask for Wizard Setup

#### 4-7-9. HDD Sleep

In case that you connected an external USB HDD into the N25, you can make the connected HDD go to sleep mode by this setting. There are five (5) options like OFF, 10 Min, 20 Min, 30 Min and 1 Hour. During the selected time, if no access to HDD, the HDD goes into sleep mode.

Sleep

Off

X For the N25 to wake up from HDD sleep mode, it takes 3~4 seconds. During this time, the N25's response to the input signal from remote control will be delayed.

### 4-7-10. Format Storage

X NOTE: HDD Format function of the N25 does not support multi-partitioning. If you would like to make two (2) partitions on the HDD we recommend this is done using your computer.

🏶 System	# Select Storage Device

The 2nd RC (Premium Aluminum RC)

#### 4-8. Time

You can set time format and time via internet or by manual here.

#### 4-8-1. Time Format

N25 displays the time while playing the internet radio. Pressing the CLOCK key displays time. N25 can display one of two ways, AM/PM or 24Hours. You can select which here.

#### 4-8-2. Time Set (Internet)

① Select Time Set (Internet) and confirm it with the OK button. All the time options will be displayed as below.

[ TIP ] Make sure that the N25 is connected to network (internet) before you try time setting by Time Set (Internet).

#Time Set (Internet)	
✓GMT+00 London	
GMT+00 Lisbon	
GMT+01 Amsterdam	
GMT+01 Berlin	
GMT+01 Brussels	
GMT+01 Budapest	
GMT+01 Copenhagen	

- ② Select your preferred time and confirm it with OK button.
- 【 TIP 】 Default: GMT+00 London

#### 4-8-3. Time Set (Manually)

Without a network (internet) connection, you can set time manually.

① Select Time Set (Manual) as in the above picture and confirm it with the OK button.

② Input your time manually and select OK to confirm it with OK button.

#### 4-9. Firmware

You can check the current firmware version of your N25 and install the updated new firmware.

Select Firmware and confirm with the OK key.

#### 4-9-1. Current Version

🌣 Firmware	A Firmware Version
Current Version	
Update manually Update automatically Update FM Radio Firmware Check now for new firmware	X50-CA-1.0.0.b0278
	OK

You can check the current firmware version as shown below. Select Current Version and confirm with the OK key.

#### 4-9-2. Update manually (Firmware update manually)

Firmware     Current Version	
Update manually Update automatically	① Obtain the new firmware first and put it onto the root directory of
Check now for new firmware	USB memory stick or the HDD of the N25.
	② Plug the USB memory stick into the USB host port of the N25.
	③ Go to SETUP and select Firmware Update and confirm with the
Package File = HDD1	OK key.
USB1	④ Select the storage device containing the new firmware.
	5 Select xxxxxxxxx.pkg file and confirm with the OK key

Select OK and confirm with the OK button. The N25 will reboot automatically to update the N25.

#### 4-9-3. Update automatically (Automatic Firmware Update by network)

Firmware	Update automatically
Current Version Update by manual	Off
Update automatically	VON
Check now for new firmware	

The N25 will automatically update the firmware through the network. If you don't wish this done automatically you can change the setting to OFF, see left.

※ Default: ON

#### 4-9-4. What is Automatic Firmware Update by network?

This function is available only when N25 is connected to a network (internet). In the instance that a higher version of the firmware exists at our server system, your N25 will check it automatically when the N25 boots up.

NOTE: If CANCEL is selected, the folder [New Firmware] is created automatically in the internal hard disk (or USB), then the N25 will not ask for a Firmware Update when booting up. If you delete [New Firmware] through Browser, it will ask again.
 NOTE: There is no actual data in the [New Firmware] folder.

If OK is selected the N25 will try downloading and extracting it automatically. The N25 will reboot automatically to update the firmware, see sequence below:

#### 4-9-5. Check now for new firmware

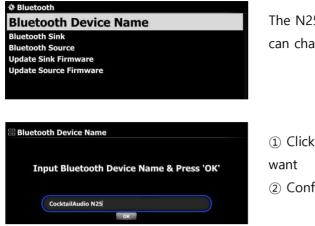

When you want to check if your N25 has the latest firmware installed, please use this function. If there is higher version of firmware in our server, the dialog window will show up when you click this option.

#### 4-10. Bluetooth

Setup	
Network Service	
Internet Service	
System	
Time

Bluetooth	
License	

The N25 offers Bluetooth Sink(Receiver) as default, and offers Bluetooth Transmitter(Sender) as optional

#### 4-10-1. Bluetooth Device Name

The N25's default name as Bluetooth device is N25. You can change it as you want

 $(\ensuremath{\underline{1}}$  ) Click 'Bluetooth Device Name' and input name as you want

② Confirm by clicking OK

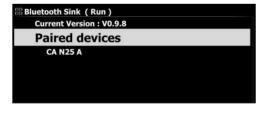

#### 4-10-2. Bluetooth Sink(Receiver), Pairing and play music

When you want to play files in your mobile devices which have BT function(sender) via the N25, you can use N25 BT Sink(Receiver) function

Bluetooth Sink	( Run )	
Current	Version : V0.9.8	
Paired device	25	
CA N25 A		

Left screen shows Bluetooth Sink(Sender) firmware version. The N25 manufacturer will release updated firmware for Bluetooth Sink if needed.

luetooth Sink (Run)
Current Version · VA & R
Pa
Stop Pairing
Clear All Paired
Reset

#### For pairing and playing music

Go to SETUP > Bluetooth > to open 'Bluetooth Sink'
 Register N25 onto your BT device like smart phone
 Then, you can find out your smart phone on the N25 as a paired device

④ You can play the music from your phone via the N25
※ Place the cursor on the Paired devices, and press MENU key to run 'Stop pairing', 'Clear all paired', 'Reset', etc

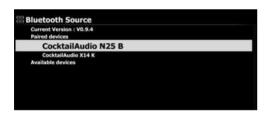

#### 4-10-3. Bluetooth Transmitter (Sender)

When you want to send songs in the N25 to the Bluetooth speakers or Bluetooth headphones, you can use N25 BT Transmitter (Sender) function

% This is optional function. You need to buy 'Bluetooth Transmitter Kits from N25 manufacturer separately

🕸 Bluetooth	
Bluetooth Device Name	
Bluetooth Sink	
Bluetooth Source	
Update Sink Firmware	
Update Source Firmware	
Bluetooth Source	
Paired devices	
Available devices	
Bluetooth Source	
Defined designs	

# Bluetooth Source Pa Ava Low Latency : Off Search Clear All Paired Reset

#### For pairing and playing music

① Go to SETUP > Bluetooth > to open 'Bluetooth Transmitter (Source, Sender)'

② Place the cursor on the 'Paired devices' and click MENU key to open menu window

③ You can find out 'Search' on the menu window, select it and click it

③ Then, connected Bluetooth devices (Receiver) will be listed up on the screen like left screen.

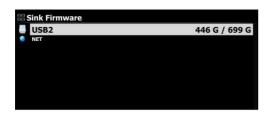

④ You can choose one of them to start playing the music in the N25 via the selected Bluetooth devices (Receiver)

## 4-10-4. How to update Bluetooth Sink(Receiver) / Transmitter(Sender, Source) Firmware

& Bluetooth	
Bluetooth Device Name	
Bluetooth Sink	
Bluetooth Source	
Update Sink Firm	ware
Update Source Firmware	

You can update Bluetooth Sink and Transmitter (Sender, Source) firmware when the N25 manufacturer releases new updated firmware.

※ Update method for Bluetooth Sink and Transmitter is exactly same

USB1/BT Firmware/N25 BT firmware

NOVATRON\_SINK.pkg

 Prepare new firmware and USB memory stick
 Copy the new firmware into the root directory of USB memory stick.

3 Plug the USB memory stick into the USB host port of the N25

④ Go to SETUP > Bluetooth > 'Update Sink Firmware' or 'Update Source Firmware' to look for the new firmware

(5) Select the storage(USB storage) containing the new firmware

6 Select xxxxx\_Sink.pkg or xxxxx\_Source.pkg file and confirm with OK icon

#### 4-10. License for Gracenote Service 4-10-1. Limited Gracenote service

N25 provides Gracenote service to retrieve CD metadata and Album cover art for CD Ripping.

#### **※ NOTICE**

But, Gracenote service is free for two (2) years. After two (2) years, if you want to keep using Gracenote service, you need to pay five (5) EURO per service for one year. Of course, if you don't like to Gracenote service with payment, CD metadata from freedb server and album cover art from Google, Amazon, Bing, etc are available in the N25

#### 4-10-2. How to activate license for Gracenote service

#### **※ NOTICE**

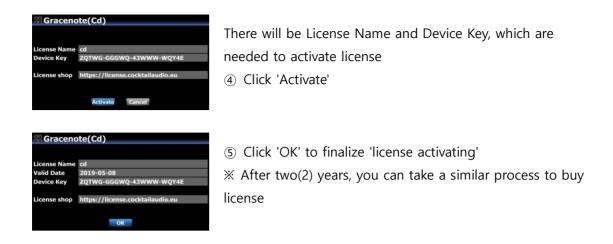

You need to taka a simple process to activate 'Gracenote Service' first like below.

- ① Go to SETUP>License.
- ② Click 'License', then below screen will show up

License	
Gracenote(Cd	1)
Gracenote(Cover)	

% Two(2) services are available. One is CD metadata(Cd), the other is Album coverart(Cover)

③ Click one of them. For example, click 'Gracenote(Cd)

#### 5. What is the Music database (Music DB) and how to make it

To make a Music DB at your N25, you need storage like external USB HDD or NAS which contains music files. Connect them to the N25. Go to the Browser and just place the cursor on the folder containing the music you want for Music DB

#### 5-1. What is the Music database (Music DB)

Only tag info and metadata of music files stored in multiple folders of storages connected to the N25 will be scanned and collected in the Music DB. The music file itself remains in its original folder. So, annoying functions such as MusicDB backup, restore or exporting, etc are no longer necessary. The Music DB feature will facilitate classification by album, genre, title, artist, etc, editing and searching.

#### 5-2. How to make the Music DB

0. U	SB1

#### 6-2. SEARCH function.

In the case that there are many album lists in Music DB, the search feature can be useful.

① On the album list screen, press SEARCH button to display the left/below screen.

② Enter the album name or part of the album name into the album name field using the remote control.

※ NOTE: To view corresponding lists type the first few characters of the album

**[** TIP (5) **]** You can run the SEARCH function by artist from the artist list screen, by genre on the genre list screen or by title on the title list screen, see below.

🐏 Artist	2	
Sarah Brightman	Input Artist & 'OK'	Input Genre & 'OK'
Yuhki Kuramoto		
Unknown	•	
Eric Benet		

#### 6-3. How to manage Music DB

The N25 allows you to manage the Music DB. You can remove music from the Music DB or rename albums, artists and genre.

#### 6-3-1. Renaming music in the Music DB.

① Open the album list, artist list or genre list.

② Place the cursor on the list you would like to rename.

③ Press the MENU button. The menu screen is displayed as shown below.

④ Select Rename and confirm with the OK button.

(5) Select OK and confirm with the OK button.

[ TIP 6 ] You can also run this function for the artist list and the genre list by using the same procedure.

#### 6-3-2. Cover Art

Diva - The	Singles Collection	
Libra Sca	Delete	
Lost In T	Rename	
Can Our		
Essentia	Cover Art	
1725 - Jo		_
All My Lc	Album Edit	
First We	Artist / Track

Deja vu		
True Ballads		

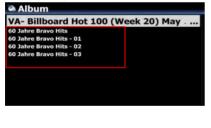

You can add album cover art for an album in MusicDB ① Place the cursor on the album list to which you want to add album cover art.

② Press MENU key to open menu window like left. Then, you can follow up as the window guides you.

#### 6-3-3. Album Edit for Multi-Album

There is a Multi-Album which is composed of several CD like C1, C2, C3, C4, etc. You can merge C1, C2, C3 and C4 into folder(album)

#### For example,

% The 60 Jahre Bravo Hits is a multi-album, which is composed of four(4) CDs. You can merge all tracks of four CDs into one album name(60 Jahre Bravo Hits)

	Hot 100 (Week 20) May 16 2015 RZ-I
60 Jahre	Rename
60 Jal	Cover Art
60 Jahre 60 Jahre	Album Edit
	Artist / Track
	Artist / Album

# More Info	o. for Multi-Album	
Album	60 Jahre Bravo Hits -	01
Album Artist	Unknown	
CD-Year	9999	
CD-Number	2	
CD-Total	2	
	OK Cancel	NUM

① Place the cursor on the 60 Jahre Bravo Hits -01(This is CD2), and press MENU key

2 Select Album Edit to show up the below screen

③ You can edit Album name(60 Jahre Bravo Hits - 01) to target one(60 Jahre Bravo Hits) including other items.
※ If you press OK key when the cursor is in album name, the 'Album Help" screen will show up. You can select target album here

After finishing editing the screen, please confirm with OK button.

% You can merge other CD2, CD3, CD4 like above.

hre Bravo Hits

After finishing merging all CDs, the album looks like left screen.

Select it and press with OK key. Then, it looks like below screen. There will be five(5) folders like [All], [CD1], [CD2], [CD3], [CD4]

#### 6-3-4. History function

You can list a maximum of 10 recently played songs from the Music DB using this function.

	Album	
]	Titles	
-	History	
1	Export Songs Delete	

1 Go into the Music DB

2 Press the MENU key

③ Select 'History' and confirm with the OK key, as shown in the screen shot on the left.

#### 6-3-5. Set 'Playing Section' to play it repeatedly

① On the Playing Screen, if you press LEFT ARROW key at a certain point, the point will be 'starting point'.

② If you press RIGHT ARROW key at a certain point, the point will be 'ending point'.

X NOTE

1) If the 'Playing Section' is set, it will play repeatedly on the playing section

2) Numeric key of remote control (jump function) or -15/+15 SEEK key will be helpful to set 'playing section' easily.

#### **%** In case that 'playing section' is already set, each key works like below.

\* -15(SEEK) Key: Pressing the -15 Key one time makes 'Playing Point' move backward by 15 seconds playing time.

\* +15(SEEK) Key: Pressing the +15 Key one time makes 'Playing Point' move forward by 15 seconds playing time.

\* LEFT ARROW Key: When 'Playing Point' is below 50% of total playing time, LEFT ARROW key will make 'Starting Point' move backward by 0.25 seconds

\* RIGHT ARROW Key: When 'Playing Point' is below 50% of total playing time, RIGHT ARROW key will make 'Starting Point' move forward by 0.25 seconds

\* LEFT ARROW Key: When 'Playing Point' is over 50% of total playing time, LEFT ARROW key will make 'Ending Point' move backward by 0.25 seconds

\* RIGHT ARROW Key: When 'Playing Point' is over 50% of total playing time, RIGHT ARROW key will make 'Ending Point' move forward by 0.25 seconds

\* PREVIOUS key: 'From current point to end' will be playing section.

\* NEXT key: 'From beginning to current point' will be playing section.

\* STOP key: Playing section will be cleared.

#### 7. Editing the TAG information of the music in the Music DB

You can edit the TAG information of music such as the title, artist, album, year or genre by following the steps below:

Dive The Singles Collection

Diva	- The Singles Collection	
J	Delete	
	Rename	
	TAG Edit	
1	Artist / Track Artist / Album	

Title	Phantom Of The Opera (Fe	
Artist	Sarah Brightman	
Album	Diva - The Singles Collectio	
Composer	Abcde	34 50
Year	2006	
Genre	misc	ding /

1) Place the cursor on the music you wish to edit.

② Press the MENU button and select TAG Edit and confirm with the OK button. The screen below is then displayed.

③ Using the remote control or USB keyboard you can edit the information.

④ Select OK and confirm with the OK button.

[ TIP ] You can edit scanned music in the Music DB of the N25 easily using the WebInterface.

#### 8. Playlist

The N25 has three (3) kinds of playlist. The 1<sup>st</sup> one is just the normal Playlist function, the 2<sup>nd</sup> is 'My Playlist', and the 3<sup>rd</sup> is 'Advanced My Playlist'. The normal Playlist does not disappear by stopping or powering off. However, My Playlist and Advanced My Playlist are virtual playlists. The virtual playlist is removed by stopping or powering off.

X NOTE: If you run 'My Playlist function' or 'Advanced My Playlist function', the My Playlist is created automatically in the Playlist folder.

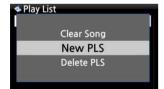

#### 8-1. Playlist

#### 8-1-1. How to make a Playlist

Ensure there are music files in the Music DB before making a Playlist.

◆ Diva - The Singles Collection Phantom Of The Oper... ☺ Music Of The Night Pie Jesu(Featuring Paul Miles-Kingston.. Who Wants To Live Forever Tu Quieres Voiver Just Show Me How To Love (Featur .... Deliver Me Select the Playlist icon and press OK.
 The screen below is then displayed.

[ TIP (1) ] The Auto Play folder is created automatically and it can't be removed by the user.

② Press the MENU button to show a popup menu, see screen shot below.

③ Select New PLS and confirm with the OK button.The screen below is then displayed.

④ Enter a playlist name and select OK. Confirm the selection with the OK button.

The album list is then displayed in the Music DB, as shown below.

[ TIP ② ] You can add music to a playlist by track or by album.

(5) You may see + icon at the end of the cursor on an album. Press the PLAYLIST key to add the album to the playlist.

※ NOTE: You can move the cursor by using the arrow key (UP/DOWN)

6 Press the OK key if you would like to go down the track list of an album

⑦ You can add more music (tracks) or albums using the above procedure.

(8) After adding a track or album, press RETURN to go to the screen shown below.

(9) Select OK and confirm with the OK button.

Then, the playlist 1 is stored in the Playlist folder, see below. You can view the playlist if you go into the Playlist folder through the Playlist icon on the home screen.

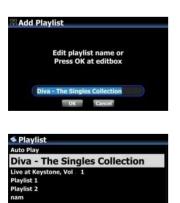

Playlist has been created

% NOTE: To add more songs or albums to the playlist you have created, move the cursor onto the intended playlist and press the MENU key.

#### 8-1-2. How to make a Playlist with whole tracks in album, Genre, or

#### Artist

① For example, go to Album list and place the cursor on the target album

2 Press PLAYLIST key of remote control

③ Edit Playlist name as you want, and press OK. Go to Playlist and there will be the playlist like below picture.

## 8-1-3. How to add songs to a Playlist whist playing music

When you are enjoying music from the Music DB and you come across a track you would like to add to a playlist, you can add it to an existing playlist in the Playlist folder by following these steps:

#### [ Playing Screen ]

Phantom Of The Opera / Diva The Phantom Of The Opera Music Of The Night Pie Jesu(Featuring Paul M Who Wants To Live Forev Tu Quieres Voiver Just Show Me How To Lo Deliver Me	≪ Select Play List Auto Play Playlist 1 Playlist 2 Playlist 3	Select Play List Auto Play Playlist 1 Playlist2 Playlist 3
03:51 🕨 04:01 1/14 🔼		

- ① Press the PLAYLIST key whilst in 'Playing Screen' mode as shown above.
- ② Select the playlist you would like to add the song to.
- ③ Confirm with the OK key and the song will be stored in the selected playlist.

#### 8-1-4. Shortcut to add song(s) in MusicDB to existing playlist

① Place the cursor on a title, album, genre or artist in the MusicDB that you want to add to an existing playlist

- 2 Press 'PLAYLIST' key of remote control
- ③ Select the playlist where you want to add the song(s), album, etc
- (5) Press 'OK' key to start adding

#### 8-1-5. How to play a Playlist

Playlist 2 How Can You Mend I.O.I.O  Select the Playlist icon on the remote control or press the PLAY LIST hotkey on the remote control. The following screen is then displayed.

(2) Select the Playlist you would like to play and confirm with the OK button.

You will then see the music in the playlist as shown below.

③ Select the music you would like to play and confirm with the OK button to play the selected music.

[ TIP ③ ] If you set the play mode as Repeat All, all music in the selected playlist will be played continuously in sequence.

# 8-1-6. How to change song position in a Playlist

① In a Playlist, select a song or songs with RIGHT arrow key.

② Move the cursor with UP/DOWN arrow key to the place where you want to move the selected song/songs.

③ Press LEFT arrow key to paste the selected

## 8-1-7. How to edit a Playlist

Go to the Playlist screen. Press the MENU button on the remote control. You can delete existing playlists, add music to existing playlists or clear music from an existing playlist.

< Play List	🔹 Play List	🔹 Play List
Rename PLS F New PLS	New PLS F Delete PLS	Delete PLS Add Song
Delete PLS	Add Song	Clear Song
, F Add Song F Clear Song	F Clear Song F Rename PLS	F Rename PLS F New PLS

# 8-2. My Playlist (Virtual Playlist)

This is a virtual playlist function. After you have made a My Playlist, it will be removed if you stop playing or power off. This function works only in the Music DB. It will not work in the Browser.

	6 F
The Element of	of Free
Chason Collection

	352.8Khz(384Khz)			

# 9-2. Group Play main menu

To set for Multi-room (Group Play), click Group Play icon on the home screen to open it

# 9-3. Device name and Host name.

Give the device a unique name to easily identify the devices in each zone. The device name for Group Play is linked to the Samba Server Host name

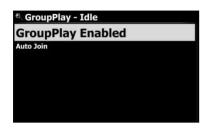

Network Service	Bank Host Name
Samba Server	
Host Name	
Workgroup	Input Host Name & Press 'OK'
Web Server	
UPnP Server	
Ftp Server	
User Name	Living Room
Password	
Shareplay(Airplay)	OK

Go to Setup>Network
 Service>Samba Server to open
 'naming dialog window' for Host
 Name

② Input name as you want, and confirm it by clicking OK icon

#### 9-4. Basic Setup by device

#### 9-4-1. How to set a device as server device

#### 9-4-2. Auto Join

© GroupPlay - Idle GroupPlay Enabled Auto Join You can set a device as Server device

 Go to home screen and click the Group Play icon
 Place the cursor on the 'Group Play Enabled' or 'Group Play Disabled'
 Press OK key to set to 'GroupPlay Enabled'
 Once you start playing song,

the device becomes server device

You can toggle 'Auto Join' or 'Manual Join' with OK key

If a client device is set to 'Auto Join', the client device will be automatically connected to a Group Play once the server device starts playing

#### 9-4-3. Manual Join

If you set 'manual Join' on the Client device, you can add the device manually as a client later.

You can toggle 'Auto Join' or 'Manual Join' with OK key

If a client device is set to 'Manual Join', you can add the client device manually to a Group Play after the server device starts playing

To add a client device manually to a Group Play

1 Place the cursor on the server device

② Press MENU key to open menu window and click 'Join this Server'

## 9-4-4. Playing screen

If you play the songs over the Group Play, you can find the playback screen of Server and Client like below.

Server device screen

Client device screen

#### 9-5. Advanced setup by MusicX NEO app

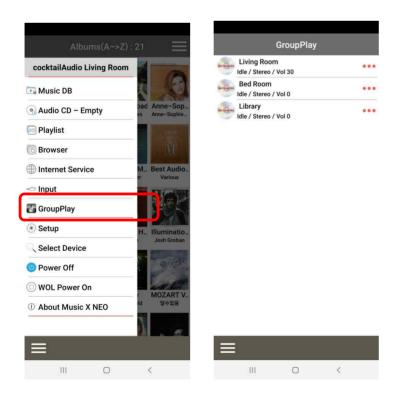

You are recommended to use MusicX NEO app for advanced setup and easy use of Group Play.

## 9-5-1. Look for devices available over a Group Play

Click the 'GroupPlay icon on the MusicX NEO, you can find out all devices available over a Group Play like below screen

**For example,** you can see the three(3) devices of Living Room, Bed Room, Library like below screen. All three(3) devices are currently in the status of idle

- -. Living Room device : This is set as 'GroupPlay Enabled'
- -. Bed Room device : This is set as 'GroupPlay Enabled' and 'Auto Join'
- -. Library device : This is set as 'GroupPlay Enabled' and 'Manual Join'

# 9-5-2. Start playing songs to set as server device

Once you play music on the Living room device, the three(3) devices will be like below

-. Living Room device : This will be server device

-. Bed Room device : This will be a client device and automatically joined to the Group Play, because this device is set as 'Auto Join'

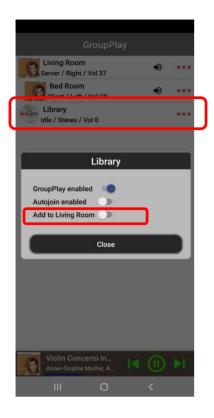

-. Library device : This will be still idle, because it is set as 'Manual Join'

GroupPlay		
Living Room Server / Stereo / Vol 30	•)	•••
Bed Room Client / Stereo / Vol 38	۹	
Library Idle / Stereo / Vol 0		•••

You can add the Library device to the Group Play by Manual Join method

## 9-5-3. How to add client devices to Group Play by manual

① On the above screen of devices list, tapping the area marked with a square on the screen will pop up the setting window.

② For 'Add to Living Room' on the pop up window, drag to enable to add the Library device into the Group Play as a client

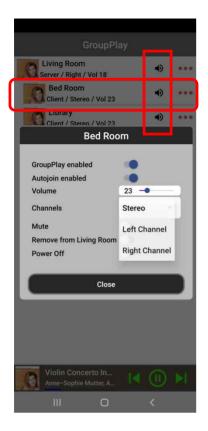

#### 9-5-4. Control devices.

Gro	upPlay		
Living Room Server / Right / Vol	18	۲	***
Client / Left / Vol	23	۲	
Library Client / Stereo / V	/ol 23	۲	***
Livin	ıg Room		
GroupPlay enabled Autojoin enabled All Volume Channels Mute Poweroff All Clients	18 Stereo Left Channel Right Channel	•	
	Close	_	
Violin Concerto	an sagara		ÞÍ
Ш	0		

## For server device(Living Room)

① Tap the area marked with a square to pop up control window

② You can control volume of all devices including client devices at the same time, and can set channel of the server device as you want like Stereo, Left channel or Right channel. You can also do Mute and power off all clients

# For client device(Bed Room)

① Tap the area marked with a square to pop up control window

② You can control volume of client device, and can set channel of the client device as you want like Stereo, Left channel or Right channel. You can also do Mute and power off the client device

③ Tap the 'speaker' icon marked with a vertical square, the tapped device will be muted immediately

# **10.The Music Streaming function**

As the N25 supports various network protocols such as; UPnP Server/Client/Renderer and Samba Server/Client, you can enjoy various Music Streaming functions with the N25.

# 10-1. UPnP Server/Client and Samba Server/Client function

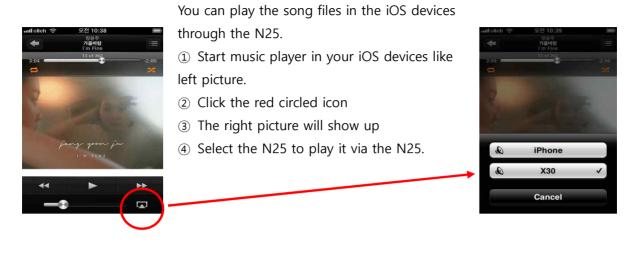

You can use the N25 together with various kinds of devices that support UPnP Server/Client or Samba Server/Client. If the devices are connected to the N25 through the same network, you can see the devices through the Browser, see below;

Browser	Browser
HDD1 USB1	HDD1
	e osbi
	<b>UPNP</b>

% For connecting to the shared folders of networked devices, refer to 4-5-2 Network Sharing (Samba Client) (Page 46)

# 10-2. Shareplay(Airplay) function

This is the same function as Apple 'Airplay'

# 11. i-Service

Ensure the N25 is connected to the network (Internet) before using the i-Service. [ TIP 1] There might be a slight delay when tuning i-radio stations (buffering). This delay may occur due to the network (Internet) connection.

# 11-1. Internet Radio

## 11-1-1. How to play the Internet Radio.

You can enjoy many internet radio stations. The N25 Internet radio is based on the Airable server. It provides many stations by genre, by country, etc.

[ TIP ] When the i-Service icon is highlighted the N25 is successfully connected to the network.

① Select the i-Service icon and confirm with the OK key. The below screen is then displayed.

② Select the Radios and confirm with the OK key. The below screen is then displayed.

- ③ Here you can select an item you want
- ④ There will be station lists in each folder.
- (5) Select a station and confirm it with OK key to start playing

Now playing.

# 11-1-2. How to add your favorite stations into Favorites.

Whilst playing a station press the FAVORITE button on the remote control to add the station to Favorites. The station will then appear in Favorites folder, as shown left.

# 11-1-3. How to a run search function on the Internet Radio

You can search for a station on the Internet Radio as follows; on the Internet Radio screen, press the SEARCH button on the remote control, the left screen will then be displayed. Input the first few alphabetical characters of the station and select OK and confirm with the OK key. Similar named stations are also displayed.

# 11-1-4. Recording from the Internet Radio

X NOTE 1: We recommend NOT to record continuously for over three (3) hours.

※ NOTE 2: Space required for recording in MP3 format: 1 hour(54MB)/2 hours(108MB)/3 hours(162MB)

X NOTE 3: N25 will record i-Radio by the formats like MP3, AAC or ASF according to the station's streaming format.

# 11-1-4-1. How to record

① While the I-Radio is playing, press the REC button to start recording.

② Press the STOP button to stop recording

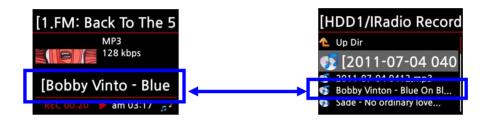

# 11-1-4-2. Where is the recorded file stored?

The N25 creates a [IRadio Recording] folder on the hard disk automatically when recording has started. All recorded files are stored in the IRadio Recording folder, see below.

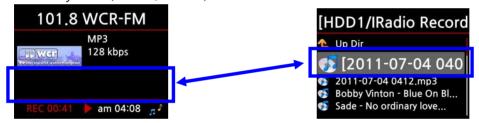

Srowser HDD1 USB1	HDD1 Up Dir IRadio Recording my music 1 my music 2 my music 3	<ul> <li>☐ [HDD1/IRadio Recording]</li> <li>▲ Up dir</li> <li>☑ [2013-09-05 0511].mp3</li> <li>☑ 2013-09-01 0112.mp3</li> <li>☑ Le Freak.mp3</li> <li>☑ My Sharona.mp3</li> </ul>
-------------------------	---	---

# 11-1-4-3. The recorded file name structure

The station will show the music title, see below, the recorded file name will be the music title.

If the station does not show any title, see screen shot below, the recorded file name will be 'yearmonth-day-time (minute/second).

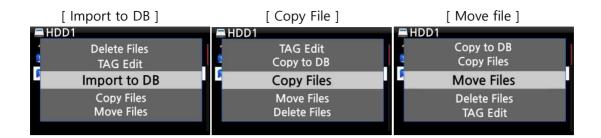

## 11-1-4-4. How to edit the recorded file

You can edit the recorded file easily with the file management function. Place the cursor on the recorded file and press the MENU button to run the following functions:

[ TAG Edit ]

🚔 HDD1	E[2013-09-02 0208.mp3]
Move Files	Title 2013-09-02 2080
Delete Files	Artist
TAG Edit	Album Composer
Copy to DB Copy Files	Year Office Year
	ОК

## 11-1-5. Reservation Recording

This function works for the stations stored in Favorites folder.

#### 11-1-5-1. How to set reservation recording

Favorites
 Favorites
 101 Smooth Jazz
 101.5 WCR FM
 103.4 Swr FM
 103.4 Swr FM
 103.9 Voice FM
 Reservation Record
 Reservation Recording List

#### 1 Open 'Favorites' folder of Radios.

Place the cursor on the station you want to set

③ Press MENU key to open menu window like left.

- $\ensuremath{\textcircled{3}}$  Input date, time, etc on the setup window like left
- ④ Confirm it with OK key

X To check if Reservation
 Recording Setting is well done,
 press MENU key at the
 Favorites list, and select
 Reservation Recording List to
 show recording list like left.

Reservation Recording List 08-26 13:33 1:00 101 Smooth Jazz	※ The station set as 'reservation recording' will be listed like left picture.
	■ Aug 26th, 13:33> Recording start
	■ 1:00> It will record for one hour.
	■ 101 Smooth Jazz> Station name

# 11-1-5-2. How does the reservation recording start

# 1) In case that you powered N25 off after recording setting (e.g. 4:00PM / record for 3 M )

- N25 will start booting up automatically at 3:57PM (3 minutes before set time 4:00PM)
- N25 will start playing the station at 3:59PM (1 minute before set time 4:00PM). Volume is set as 'Mute' automatically.
- N25 will start recording the station at 4:00PM and keep recording until 4:03PM.
- N25 will power off automatically by itself as soon as it finishes recording at 4:03PM.

# 2) In case that you keep N25 powered ON after recording setting (e.g. 4:00PM / record for 3M ).

- N25 will stop current job (playing) and start playing the station at 3:59PM (1 minute before set time).
- N25 will start recording the station at 4:00PM and keep recording until 4:03PM.
- N25 will stop recording at 4:03PM and keep playing the station continuously.

## **※** Set for multiple stations

You can set reservation recording for multiple stations. But, set time must NOT overlap each other. Of course, you have to consider needed time for each activity described above (How to work). If you do not give interval enough for each station and each activity, this function will not work properly. (e.g. You set recording at 4:00PM, and you powered off N25 at 3:58PM) **X NOTE: The recorded file will be stored in the 'IRadio Recording' folder of hard disk. You can see it through 'Browser'. You can edit the recorded file with the Tag Edit function.** 

# 12. FM Radio

## 12-1. How to play FM Radio

X NOTE: Make sure to install the FM Radio antenna properly first.

- 1 Select FM Radio icon to start FM Radio
- ② N25 will seek all stations available
- ③ Select one station and confirm it with OK key.
- ④ It will start playing as below.

※ NOTE: On the playing screen like above, you can do fine tuning with the arrow (UP/DOWN) keys, and seek station with the arrow (LEFT/RIGHT) keys.

× NOTE: In countries where RDS is available, you may see station name info and text data info in the red square.

X NOTE: Place the cursor on the station list screen, and press MENU key to show up POPUP menu as below.

You can run useful functions like Rename, Delete, Seek All, Clear & Seek All

The left screen is for renaming the station

# 12-2. How to record FM Radio

① When playing FM radio, press REC key on the playing screen to start recording.

② To stop recording, press STOP button of remote control.

<NOTICE> It will be recorded as CAF format

\* NOTE: The recorded files will exist in 'FM Radio' folder of 'My Recording' folder in HDD. You can edit the recorded file. Refer to 11-1-4-4. How to edit the recorded file (Page 84).

# 13. DAB+

#### 13-1. How to play DAB+

- 1) Select DAB icon to start
- ② N25 will seek all stations available like below screen

<NOTICE> DAB signal is affected very much and easily by neighboring obstacle like wall. So, you need to remove surrounding obstacle to receive DAB signal better.

% If you want to re-scan, press MENU key on the station list. And, select 'Seek All'

③ Select a station you want to play, and confirm it with OK④ It will start like left

#### 13-2. How to record DAB+

How to record DAB+ is exactly same as FM Radio recording. Please refer to 12-2. How to record FM Radio(Page 87)

# 14. USB host port for USB devices

You can use various USB devices like USB memory stick, MP3 Player, USB external hard disk, etc with the USB host port of N25.

- 1 Plug the USB device into the USB host port of the N25.
- ② Go into the Browser screen. The USB device appears in the browser screen as shown below.

# 15. Browser

If you go to the Browser icon, you can run the following functions.

15-1. Accessing information on the USB, folder or file.

Place the cursor on each drive and press the INFO key. The information is displayed as shown below.

To check the information of the folder, place the cursor on the folder and press the INFO key.

To check the information on a file, place the cursor on the file and press the INFO key.

## 15-2. TAG Edit

This function is only valid for files not for folders or disks.

Place the cursor on the file you would like to edit and press the MENU key. Select Edit Tag and the edit screen is displayed, see below.

HDD1		## <b>01</b> -	Preludio_FLAC24bit176Khz.flac

① Place the cursor on the file or folder you would like to copy

① Place the cursor on the file or folder you would like to

② Press the MENU key and select Copy Files. The screen

② Press the MENU key and select Copy Files. The screen below is then displayed.

## 15-5. Delete Files

You can delete file or folder using the following procedure:

<sup>©</sup> USE	31	
-	Copy Files	
	Move Files	
	Delete Files	
2	TAG Edit	
	Copy to DB	

① Place the cursor on the file or folder you would like to delete

(2) Press the MENU key and select Delete Files. Confirm with the OK button to start deleting.

on

## 15-6. .PLS or .M3U files with Internet radio stations

If you wish to play an individual internet radio station using the N25, you will need to create a PLS or M3U file and put the file(PLS or M3U) onto the storage or USB host of the N25. Once you have created the file you can play the station through the N25 Browser, see example below.

p dir
olskie Radio Program no1
butcast-SoftSmoothzazzcontest

## 15-7. Convert Audio Format

• HDD1/Export Test	् HI	DD1/Export Start/[0002] Diva	
▲ Up Dir Dir Contraction Co	ов	ogg flac	* This function works
Gen Convert Aud		m4a	Browser mode only.
S Diva Create Fold Copy File		wma wav	

1 If you want to convert the format of tracks,

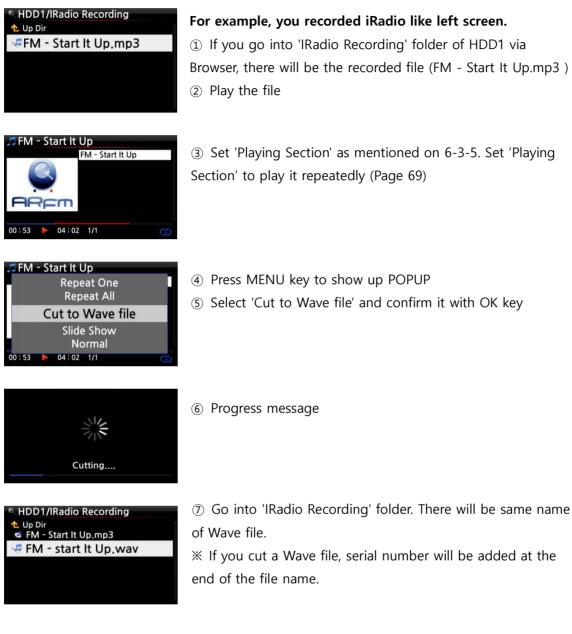

(2) Place the cursor on the file or folder, and press MENU key. (X With RIGHT ARROW key, you may select multiple song files)

③ Select 'Convert Audio Format'. The format option like m4a, wma, wav, mp3, ogg and flac will show up.

- ④ Select one format to start converting.
- (5) One folder with the same name as the selected format will be created automatically.
- $\textcircled{\sc black}$  The converted song files will be stored in the folder.

# 15-8. Cut the recorded file (Cut 'Playing Section')

X NOTE: This cutting function works on Browser mode only.

#### 15-9. Create Folder

Via this function, you can make a folder in the Browser as you want.

- 1 Go to inside of HDD or USB
- 2 Press MENU key to open menu popup
- $\ensuremath{\mathfrak{S}}$  Select 'Create Folder' and confirm it with OK
- ④ Left screen will show up. You can put folder name and confirm it with OK

# 16. Input

# 16-1. How to play an external device via Input

As the N25 has Digital inputs(Toslink and COAXIAL), you can connect external devices like TV, player, turntable or etc to the N25 and record the audio (signal) coming from outside device.

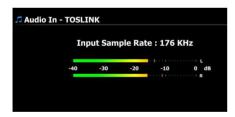

① Connect external device to the N25.

× NOTE: When connecting external device to N25, be careful to connect both devices via proper connectors and cables.

- 2 Play the external device.
- ③ Select the proper input and confirm it with OK key

Now playing.

# 16-2. How to record

While playing music through the Input of the N25, press the REC button to start recording the music playing, see screen shot to the left. Press the STOP button to stop recording.

- ※ NOTE: Explanation
- 1) Record Sample Rate: 192KHz: This is decided according to the setting of the Recording Sample Rate at SETUP.
- 2) 00 : 20 : Recording time
- 3) 23.19 M / 63.54 G: File size of the recording file / Total size of the storage

		-		
* 1)	Recorded File			
Recording	Size/Recording	Sample	File name structure	Format

4
ок

% The edited file name will be changed to [Album name]+Title

#### 16-5. How to use N25 as USB Digital-to-Analogue Converter (DAC)

 Install USB Audio 2.0 Driver Software to your Windows PC(Refer to 2-4 on page 28)
 Install a special software(Player) like foobar2000 if you want to play DSD file in your PC(Refer to 2-4 on page 28)
 Connect N25(USB Audio IN) and your PC(USB Host port) via USB cable
 Remaining procedures will be understood easily

# 17. Extra Function

## 17-1. External Screen

If you want to use an external screen like TV, monitor, etc as a bigger screen for N25, please connect external screen to N25 HDMI Out.

※ Default: Both of Internal LCD and HDMI Out are all activated.※ From Default setting, pressing SCREEN key will change mode like below

Default ----> Internal LCD only ----> HDMI only ----> Default % N25 will remember last setting when it is powered off

# 17-2. Photo Slide Show

1 Prepare photo file in the storage of N25 or in USB.

(2) While playing music, press MENU key on the Playing Screen to popup menu list like below.

 $\ensuremath{\mathfrak{I}}$  Select Slide Show and confirm it with the OK key.

④ You will be guided to select photo file.

J⊒ Co	ld W	/ind Blov	vs	
		Repea Repea		
		Slide S	how	
		Norr Shu		
01:00	Þ	04:01	1/14	(T)

(5) Select the 1<sup>st</sup> photo file and confirm it with the OK key. Then, the slide show will start based on all photo files in the same folder.

Select slide show image	USB/Photo
HDD1	🔁 Up Dir

	20130510_1823544.jpg

\* NOTE: You can set 'Slide Show Effect' and 'Slide Show Time' at SETUP

# 17-3. Listing by Text or Album cover art

You can list up all information (like album, title, genre, artist, etc) on the screen of N25 by text or album cover art. You can select one of text mode and album cover art mode easily using TEXT/ART button of remote control.

## 17-4. BOOKMARK

**Book Mark** 

Bad Romance <u>Bedrock (Fea</u>t, Lloyd)

Cinderella Man

Cold Wind Blows According To You

Files can be bookmarked while playing them. This function is useful for long files such as audio books.

① Press the BOOKMARK button on the playing screen.

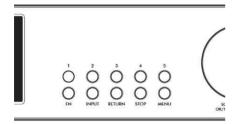

(2) The bookmarked music or story is stored in the Bookmark list as shown below.

③ If you would like to list up the bookmarked music or story, and play it, press the BOOKMARK button on any screen (except playing screen).

④ If you would like to delete bookmarked music or story, press the MENU key on the Book Mark list screen, shown left.
⑤ Select Delete and confirm with the OK button.

# 17-5. User preset keys on the front

※ You can make up to 10 shortcut keys in combination with the keys 1-5 and the FN key for FM/DAB-Radio, iRadio(Airable) or Playlist

# 17-5-1. How to assign key for stations or playlists

You can assign up to 10 user preset to the keys 1-5 on the front panel and up to 10 shortcut keys in combination with the FN key.

To assign a shortcut key, first play back the station you wish to save (FM/DAB-Radio or IRadio(Airable) or playlist) and then press keys 1-5 or the FN key + the keys 1-5 for at least 3 seconds. A message is displayed on the machine to confirm that the preset has been saved.

## 17-5-2. How to play with assigned keys

To call up the station, select the corresponding preset key by briefly pressing the keys 1-5 or the FN key + the key 1-5. The machine then starts playback of the stored station/playlist

#### 17-6. Resume Play

When you boot up the N25, it will automatically resume playing the music in the Music DB, Browser or i-Radio from where it was last stopped.

* System	🏶 Resume Play
OSD Language Auto Play	Off
Resume Play	V On
Play in Browser

User Font	

The N25 will power off automatically at the assigned date and time.

※ NOTE: Refer to section 4-7-14 Auto Shutdown (Page 54) for detailed explanation.

# 17-11. Sleep mode

 Press the SLEEP button on any screen (except setup), the popup Sleep Off/Sleep 10Min/Sleep 20Min/Sleep 30Min/Sleep 1Hour/Sleep 2Hour/Sleep 3Hour is displayed.
 The N25 will be set as per the last popup

**XNOTE:** Sleep icon will show up after setting.

※ NOTE:
S : Sleep
56 : Fifty six
M : Day
After 56 minutes, it will go into
Sleep mode (power off).

# 17-12. Auto Play

When the power is ON, Auto Play function allows the N25 to boot up and start playing automatically the song in the Auto Play folder in the Playlist on the home screen.

- ① Navigate to the Playlist to Auto Play.
- ② Place the cursor on Auto Play and press the MENU button.
- ③ Select Add Song and press the OK button.
- ④ Place cursor on the music you would like to Auto Play.

(5) You can see plus (+) mark at the end of the cursor. Press the OK button. The music will disappear and be added to the Auto Play.

6 Go to Setup and set Auto Play ON.

※ NOTE: Default of Auto Play in SETUP: OFF

# 17-13. Shortcut to find files in all list modes

On each list mode if you press an alphabet key on the remote control the cursor will jump to the first file will that character at beginning.

# 17-14. Seek function on the Playing Screen

At the playing screen you can run a seek function by pressing numeric keys on the remote control. For example, if you press the 5 key while playing a file it will start playing from the 50% position of the file based on total playing time.

# 17-15. Function of Multi-Cutting(Auto-Cutting) for recorded file

You can cut the recorded file into each track by auto or by manual. To understand this function, you need to understand each key's function well by reading this manual very carefully.

**※** NOTICE: This function works in Browse mode only for most of file format, except for DSD file. But, after running this function, all tracks (files) cut will be 'WAV' file format.

# 17-15-1. How to set 'cutting point' by auto

• HDD1/My Recording/ANALOG IN	HDD1/My Recording/ANALOG IN
👠 Up Dir	1 Up Dir
🞜 2017-12-19 1131.wav	2 Import to DB Convert Audio Format
	Multi-Cut to wave 1
	Add My Audio CD Create Folder

① Look for recorded file in Browse mode and place the cursor on it

② Press MENU key and confirm 'Multi-Cut to wav...' to start analyzing waveform of the file.

1	2	3	4	5	6	7	8
		P			di ki i	P	

-3	5dB‡	3.3 Sec	-1 X	10 5	ec .
1	2	3	4	5	6
					<u>Akui</u>

There are four(4) spins to set 'cutting point'.

- ※ Press MENU key to toggle Enable/Disable for these spins
- $\ensuremath{\mathbb{X}}$  Role of each spin
- -. -35 dB: to set max dB value for auto cutting. Scope settable: -30dB~-40dB
- -. 4.0 Sec: to set duration for the above max dB value.
  - Scope settable: 0.1 ~ 5 Sec

※ For example, if you set -35dB and 4.0Sec, 'cutting point' will be created automatically at the points where volume level -35dB below and the volume level(-35dB below) lasts for over 4 seconds

-. 1 X: to zoom graph by 1X, 2X, 4X, 8X, 16X ~ 128X

-. 1 Sec: to set 'seek time' unit when moving 'playing point' by LEFT/RIGHT arrow key. Scope settable: 0.1~30 sec

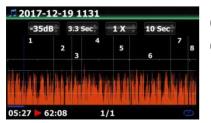

- -. 1/2/3/4/5: Number of track which will be cut
- -. Vertical green line: Cutting point
- -. Vertical blue line: Current playing point

# 17-15-2. How to set 'cutting point' by manual

- 1 You have to disable four(4) spins.
- 2 You can seek cutting point you want by LEFT/RIGHT key
- (For this job, you can set 3rd spin and 4th spin properly)
- 3 You can set 'current playing point' as 'cutting point' by pressing UP arrow key

④ By pressing DOWN key, you can remove 'cutting point' within 10 sec and closest to 'current playing point'.

# 17-15-3. How to start cutting

- ① Set cutting points properly according to the above procedure
- 2 Press RETURN key, then it will ask 'OK' or 'Cancel' like below

③ Select OK and confirm it. Then, it will start cutting like below
※ If you confirm 'Cancel', it will go back to 'Playing Screen'
※ If you press RETURN key, it will go back to 'Multi-cut screen'
④ To see cut tracks, go to the same folder where original file is
⑤ There will be one folder whose name is same as original file

6 There will be five(5) cut tracks in the folder like below.

1) All keys of remote control except for VOL BAL, VOL+/-, PAUSE/PLAY, SETUP and POWER don't work

- 2) MENU key: to toggle Enable/Disable for four(4) spins
  - 2-1) When Spin is enabled
    - <Buttons on the front of N25 unit>
    - -. OK: to go to next spin
    - -. JOG spinning: to up/down spin value
    - -. MENU: to disable Spin

<Keys of remote control>

- -. OK: to go to next spin
- -. LEFT/RIGHT: to move Spin to left/right
- -. MENU: to disable Spin
- 2-2) When Spin is disabled
  - <Buttons on the front of N25 unit>
  - -. OK: to toggle Play/Pause

- -. JOG spinning: to seek 'current playing point' by the value of forth Spin
- -. JOG spinning with JOG pressed: to seek 'cutting point'
- -. MENU: to enable Spin

<Keys of remote control>

- -. OK: no working
- -. LEFT/RIGHT: to seek 'current playing point' by the value of forth Spin
- -. UP: to set 'current playing point(vertical blue line)' as 'cutting point(vertical green line)'
- -. DOWN: to remove the cutting point within 10 seconds and closest to the current playing point
- -. MENU: to enable Spin
- 2-3) Regardless of Spin Enabled or Disabled
  - -. INPUT on the unit: t to set 'current playing point (vertical blue line)' as 'cutting point (vertical green line)'
  - -. STOP on the unit: to remove the cutting point within 10 seconds and closest to the current playing point
  - -. NEXT/PREVIOUS of remote control: to seek 'cutting point' to right/left
  - -. -15/+15 of remote control: to work just as original role
  - -. CAP/NUM of remote control: to toggle 'Seek to percent mode' or 'Jump to track mode' of the numeric keys.
  - -. Numeric keys of remote control
    - \* in 'Seek to percent mode': to seek by 0%, 10%, 20% within current displaying area
    - \* in 'Jump to Track mode': to seek to starting point of each cutting area

## 17-16. Function of Jump to a song on Playing Screen

We added 'function of Jump to a Song Mode' on Playing Screen.

Press CAP/NUM key of remote control to toggle 'Seek to Percent Mode and 'Jump to a Song Mode' \* Jump to a Song Mode : Press numeric key to seek a song

\* Seek to Percent Mode : Press numeric key to go to a certain playing position.

# 19.MQA (Master Quality Authenticated)

MQA is an award-winning British technology that delivers the sound of the original master recording. The master MQA file is fully authenticated and is small enough to stream or download. Visit mqa.co.uk for more information.

N25 includes MQA technology, which enables you to play back MQA audio files and streams, delivering the sound of the original master recording.

The LED light next to MQA logo on the N25 screen glows green or blue to indicate that the unit is decoding and playing an MQA stream or file, and denotes provenance to ensure that the sound is identical to that of the source material. It glows blue to indicate it is playing an MQA Studio file, which has either been approved in the studio by the artist/producer or has been verified by the copyright owner.

The MQA logo is a trade mark of MQA Limited.

# 20. Troubleshooting

- 1. There is no power.
  - 1-1. Make sure the power cord is connected.
  - 1-2. Check the N25 is switched ON at the rear panel.
  - 1-3. Make sure the plug is fully inserted into the wall socket.

#### 2. The N25 does not respond to the remote control.

- 2-1. Replace remote batteries
- 2-2. Check for interference from other IR sources
- 2-3. Reduce the distance between the remote control and the N25.
- 3. The N25 does not display the network-shared folder on your PC
  - 3-1. Check the network connection status between the N25 and your PC

3-2. According to the network environment there may be a time delay in connecting to the network.

3-3. Try rebooting the N25 and configure the network setup again.

- 4. No sound from the speaker during music file play back
  - 4-1. Check if the MUTE function in ON
  - 4-2. Check all cables connected to each device.
  - 4-3. Check the volume level

- 4-4. Check Audio settings at SETUP
- There is a hum coming from the speaker.
   Make sure that all cable connections are secure.
