

SPHEAR WIRELESS

Product Data Sheet

Sphear Wireless is the wireless evolution of Sphear, which has become a reference in the in-ear market for its sound quality and comfort. Sphear Wireless also offers precise and pure sound rendering, with good dynamics. Two equalizer modes will satisfy all music lovers, with a neutral mode, staying true to the original artistic work, and with a Loudness mode, to adapt to noisy environments or listening at low volumes. Sphear Wireless assumes the Sphear design codes, with a spherical design that allows long listening sessions without feeling any discomfort.
